INTRODUCTIONS

Name
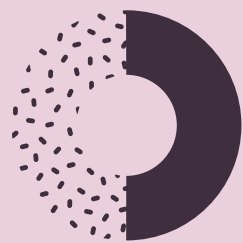

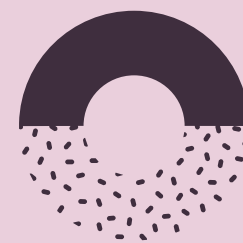

Program

**In ten words or less, why are you at the HSI Summit?**

Community and University Public Inquiry (CUPI)

We use research to improve the social and ecological conditions of our communities in Northern Arizona.

We provide applied, real-world, interdisciplinary, and ethical research skills to NAU undergraduates.

We build lasting and reciprocal relationships with NGOs, grassroots community groups, and municipal government.

We develop leadership, mentoring, and facilitation skills in NAU graduate and undergraduate students.

IMMIGRANT YOUTH EQUITY

Students in this research pod work with Northern Arizona Interfaith Council (NAIC), building leadership to help support immigrant families.

Most of the work is focused on engaging educators, parents, and students in Flagstaff Unified School District to advance educational equity for immigrant students and their families.

NORTHERN ARIZONA INTERFAITH COUNCIL

Organizing for the common good.

Broad-based organizing

building leadership for civic participation across lines that tend to divide us to make change happen around common interests

Relational Meetings

"the most radical thing we teach"

What are they?

**Face to face
Credentialed
30-45 mins
Story and person-centered
Action-oriented**

RELATIONAL MEETING

What it is

Stories
Why
Probing
Public
Calculated Vulnerability
Agitational
Action oriented

What it is not

Information
What/Where
Prying
Private
Therapy
Irritation
Task oriented

HOUSE MEETING

How might relational meetings be helpful in your work?

Who do you want to meet with and why?
